The Nugget Is California's Leading Mining Weekly

Nevada City Nugget

VOLUME V, NUMBER 25 THE GOLD CENTER NEVADA CITY, NEVADA COUNTY, CALIFORNIA THE COUNTY SEAT PAPER FRIDAY, MAY 22, 1931

LARGE MINE GROUP TO BE DEVELOPED

Large Development plans are under way by a group of New York Capitalists who are intensely interested in this field. An expenditure of nearly one million dollars is contemplated according to an announcement of A. R. Archibald, who was the central figure in negotiating the consolidation and who will serve as President and General Manager of the Corporation. Stanford D. Stauffer of Berkeley has been elected Secretary-Treasurer and is now on the ground assisting in starting activities at the properties.

The names of other officials will be announced at a later date.

Well Known Properties

Included in the consolidation are the Banner, New England, Central Consolidated, Norambagua, Perrin, Slate Range, the Kanaka and other smaller holdings. From statements made we understand that development plans call for initial work at the Central Consolidated which is located about five miles from Grass Valley townsite where considerable rehabilitation work and tunnel development has been accomplished by Mr. Archibald within the past year. Activity is also to be expected at the New England south of Nevada City where a larger plant is planned.

Both surface and tunnel work at the Central Consolidated, a high grade ore producer of recent years, convinced the present owners that faulting entered into the difficulties of former managements. Picking up the two strong ledges beyond the fault is assured according to the engineers, a view which is supported by extensive explorations.

Modern Mining Processes

An important factor entering into the operations is the application of new milling processes invented in recent years. This will aid in the recovery of values below the zone of oxidation. This recovery was very low during former operations. Although extensive experimentation may be necessary it is understood that flotation will form the basis of these new methods.

Financial plans of the California-Juneau Mines Inc. will be arranged by one of the foremost brokerage firms of New York. A list of many men interested in the project includes Lewis Kaufman, Chatham-Phenix Bank, Lewis Clark, Irving Trust Co.; E. DuPont, of Wilmington, Del.,; Charles H. Jockmus, Ansonia Manufacturing Co., Walter Perry, First National Bank of Providence, John Markle, coal mining operator, Burnham Prentice, broker and capitalist; W. J. Webster, Atlas Powder Co., and other of equal prominence.

The consummation of the present plans is the result of several years of hard and continuous effort on the part of Mr. Archibald, times when immense difficulties were encountered but which have been cleared away to permit what now promises to be the development of these mines on a gigantic scale.

GEOLOGICAL SURVEY FAILS TO GET FUND

The Department of Mines Bill which alloted this sum of $75,000 for geological servey work and the printing of geological maps of California successfully passed the Assembly but was tabled in the senatt committee. When sent to the Senate it carried with it the appropriation of $75,000 but the Committee deducted it to $15,000. After the second reading it was sent back to the committee for an additional $25,000 and was there lost in the shuffle.

This will hamper the work of the Department as they will be seriously crippled by lack of funds and it will be another two years before the Legislature can meet to pass a bill alloting the necessary appropriation.ation.

STUDENT MEDICOS VISIT

Drs. John Morgan Moore and Edgar Dawson, recent graduates from U. C., visited the Frank Nilon home here. They have a year of internehip before they will receive their degree. They returned to their home Sunday.

MINING CHIEF TO BE APPOINTED SOON

One of the bills which sucessfly passed the Legis lature and which is of special interest to mining industry A. B. no 1444 by Assemblyman Patterson will receive a salary of $10,000 and a Commission of Mines also consisting of 5 men the salary of whose chief will be $6,000 a year. These Divisions will not be separated from the Department of Natural Resources but the chief will be directly responsible to the Governor rather than to the Director of Natural Resources as heretofore. The only connection they will have with the Resources Department will be one of Financing and bookkeeping. In every other they will function entirely separate.

These Chief are two of the big plums that are to be handed out to the office has been flooded since his election with petitions. This section is especially interested in the Governors choice as Mining Chief. The Nugget received the assurance from the Governors office that whosoever received the appointment would be one who thoroughly understood the problems of the mining industry.

The orginal bill creating the Mining Commission was handled by Assemblyman Seawell while Patterson handled that one as to oils. They decided that the bill would be handled more efficiently by combining the two and whereas Assemblyman Patterson was Chairman of Ways and Means Committee and could get it out of his committee more easily it was decided that he was to be the author of the bill whichw as orig-inal bill amended so as to inclue author of the bill which was the ori-the Seawell Bill.

CHERRY CARNIVAL AT SAN JUAN, JUNE 6-7

The 14th annual Cherry Carnival will be held in San Juan this year on June 6th and 7th, opening with a big dance on Saturday evening June 6th. There will be excellent music.

Sunday there will be horse racing foot racing and dancing and all the cherries you can eat free of charge. The San Juan residents state that there are plenty of cherries this year for all.

It is expected that there will be many former residents who will return for the carnival so that the Carnival will also be a reunion.

San Juan has been hampered for many years by a lack of water and the Ridge residents have been struggling for years to get their water rights. One of the lovliest spots in the world in which to live, its ranches are deserted for most part. The money from the Cherry Carnival is used by the Water Users Association to carry on their work.

RETIRES FROM NAVY. JOINS THE RESERVE

Halstead S. Downey, a son of Mrs. G. W. Downey, a well known and prominent citizen of Nevada City, who has been a member of the U. S. Navy for the past 16 years, retired recently and has returned to his home town. Mr. Downey, although retiring from the regular service, has expressed his intention of becoming affiliated with the Fleet Naval Reserve. Mr. Downey, during his 16 years of service, rose through all the different grades and at the time of his retirement was a chief machinist-mate, rising to the enviable position through hard work, steady and fathful service, and a close attention to duty.

During the sixteen years that he wore the uniform of a Navy man he has been in all parts of the world, serving on the big battleships, destroyers and submarines.

CLASS OF '31 TO HOLD ANNUAL BALL FRIDAY EVE

The second of the three big events of the last year at high school of the class of 1931, N. C. H. S., will be the annual ball tonight, Friday evening. The class play is already a matter of history. The ball is the next big event and the year will be completed with commencement exercises which are to be held Thursday, June 4th.

MINE EXHIBITS IN EAST TO ATTRACT CAPITAL

"Mining Progress," a monthly publication, is to be published in Los Angeles for the sole purpose of aiding mine owners to sell and finance the development of promising mining propertieh, especially in California.

The publishers of this magazine are men of wide experience in contacting capital.

Their representative F. F. Smith, is now in Nevada County procuring local support and securing lists of worthy undeveloped mines.

Their plans are very extensive and include the placing of attractive gold exhibits in desirable locations in the business streets of Chicago, Detroit, New York and other eastern financial centers.

The exhibits will consist of a miniture stamp mill or model mine in one window and a hydraulic mine in the other. Specimens of quartz showing free gold will be displayed to attract th attention of the public.

Mr. Smith claims that visual demonstrations of the products of the gold mines is the best means to create interest. He contends rightly after this interest is shown that only expert salesmanship can overcome past prejudice against mining investments and show the public means of securing good mines and developing them along business principles in opposition to the old methods of stock selling. He plans to have these exhibits in charge of men of ability and experience who by personal contact will induce capital to take up definite mines and finance by personal or syndicate means.

Mining Progress aids greatly in ecuring these contacts. Herein will be published, not so much ancient history but actual facts of present day mine operations and earnings. A directory of mines will bring to the public attention actual possibilities.

This work commends support of Nevada and other counties. Miners should supply samples of ore for this display and have their properties listed in this directory.

The Nugget will be pleased to cooperate to the limit and accept any ore specimens and mine reports for Mining Progress.

JAMES GLUYAS PASSES IN ROSEVILLE FRI.

Mr. and Mrs. W. G. Richards were called to Roseville last week upon the notice of the death of Mrs. Richards' brother, James Gluyas. He had suffered a paralytic stroke two weeks previous. Funeral services were held in Roseville Saturday and interment in the Odd Fellows Cemetery.

James Gluyas was born in England nearly 84 years ago. With his mother he came to California in the early fifties and to Grass Valley in 1864. He worked in the mines and quickly rose from mine worker to superintendent. For the past few years he has been living in Roseville.

His sterling worth made for him a host of friends and he won the esteem of all with whom he came in contact.

He is survived by his widow and a daughter, Mrs. John Daggett, and a son James and daughter by a former marriage. Also the following brothers and sisters: Frank and Henry Gluyas, Mrs. W. G. Richards, Mrs. Henry Pfieffer and Mrs. Clef Schuster.

SPRING BUILDING ACTIVITIES COMMENCED

That some people have unbounded faith in the future of Nevada City is becoming evident. Besides the reconstruction of the high school building several other homes and building are under construction and some are already under way. Among them are the two modern bungalow buildings being constructed by Julius Rude, on property owned by him in the vicinity of the high school.

Believeing there is a demand for completely furnished modern up-to-date three room bungalows he is preparing to meet that demand. The buildings will be complete to the minutest detail. The furniture will include wall beds of the latest pattern. There will be a completely equipped bath room, hot and cold water, gas and electricity, and the cottages will be maintained ready for occupancy at all times.

There will be garage in conjunction with each bungalow.

Other improvements in the building line are that of Antone Fradelizio, who now resides on Grove St., and who has recently torn down an old house that stood on property owned by him on Pine St., between Clark St., and Galt bridge, and is erecting a fine home on the lot.

Rutherford H. Stephens is in charge of the construction work.

Much activity in the way of repainting and repair work is also going on among which we could mention that of Postmaster Scadden recently completed the painting of his Coyote St., home, a cream color scheme predominating, with green roof.

Ed Martine, Nevada City painter, has completed the renovation of the home of Mrs. George W. Downey on Lost Hill. Mrs. Downey in addition to having the house painted had a lot of other improvements made and her home is now one of the beautiful residences of that section.

The home of Mrs. Scheemer is receiving a coat of paint, which will make her home more attractive. Ed Martine is doing the painting.

REBUILDING OF HIGH SCHOOL NOW UNDER HEADWAY

Rebuilding of the Nevada City high school, badly damaged by fire a few weeks ago, is now under headway and will be completed in time for the opening of school this fall. The contract was let to Robert E. Steger and the amount of $13,000 allowed by the insurance company is deemed adequate for restoring the handsome building to its original usefulness.

The board has contracted for the placing of an improved roof on the building. There was considerable trouble experienced from the old roof, due to leaks, but the construction and composition of the new roof will obviate all this. The roof comes with a 20 year guarantee against defects.

ENGLEBRIGHT SPEAKS TO ROTARIANS

Congressman Harry L. Englebright was the speaker at the Rotary Club in Grass Valley. He used as his subject the problem which confronts Congress of reorganization. The Democrats and the Republicans in both houses are so evenly divided that it will make it very difficult to procure a majority.

In Memoriam

LEGISLATIVE GOSSIP AT STATE CAPITAL

By BERT CASSIDY

The 1931 Legislature is now history. Just how important its ulace will be in the annals of California progress remains for future years to determine. Certainly there has been little on the surface to justify the length of time suent in sacramento. One of the outstanding pieces of legislation as far as the 2nd Senatorial District is concerned, was the Irrigation District refunding bond act, to which the Governor has already affixed his signature. This act should greatly assist the Nevada Irrigation District is sloving its immediate financial problems. It not only affects the Nev. Irrigation District, but many other districts in the state, that find the same problem confronting them in this time of economic depression. Up until the closing days of session, neither Governor Rolph nor his lieutenants took a hand in legislative matters. During the last two weeks of the session, Rolland Vandergrift, the outstanding leader in the Rolph adminstration, began to interest himself in both the Senate and Assembly and while he appeared too late, to mould a program, he saved the adminstration from many embarrasing moments. Two weeks earlier and the outcome would perhaps have had a different tingle. It is with a sigh of relief that we write the swan song of legislative gossip for the ligislature of 1931.

* * *

Events transpired with a klidescopic rapidly during the last week of the legislative session. Members of both houses worked almost continously to finish their work at the adpournment date. The clock was stopped at 4. p. M. Friday and the legislature adjourned officially at that time, but bedraggled weary legislators held forth in session until was frined that snapped the energy and vitality of the most energetic. Governor Frank F. Merriam, who was always on the job appearing before the earliest of the senators arrived and remaining until the last had gone home, perhaps stood the strenuous days better than any of the rest. He looked as fresh as though the session were just commencing early Sunday morning, as he started out for church. With all due respect to his predecessors, may it now be recorded that only once did we see Frank absent from his accustomed place in the Senate Chamber, and that was only for a brief few moments. Senator Arthur Breed, president pro-tem had little chance to occupy the position at this session. Frank was on the job every moment.

* * *

The Sewell trespass bill, which was perhaps one of the most iniquitious pieces of legislation introduced at this session of the legislature, was killed in the Senate Friday morning at an early hour, after a call of the house brought all the senators to the capitol building. The bill had been amended taking out many of the undesirable features, but the members of the senate were in no mood to question the bill. It had the ear marks of creating havoc in the mountains and the senate voted it down, 21 to 17. Earlier in the session, the Assembly passed the bill with only 17 out of the 80 members voting against it. In the Senate where there were only 38 members, the proponents of the measure could only muster 17 votes in its favor. The work against the measure in the senate was done on the floor before it came before the body for consideration. The writer was one of the leaders in the fight against the bill in the Senate.

JOSEPH W. RODGERS OF RIDGE TAKEN BY DEATH

Joseph W. Rodgers, native of Sebastopol, and resident of that section practically all his life passed away during the week. He was 57 years of age. After completing his school days he followed mining and farming. A deep regret is felt at the passing of Mr. Rodgers.

He is survived by the following brothers and sisters, Volney and Jack Rodgers of Sacramento; Frank of Grass Valley, Mrs. Sam McCullough of San Juan and Mrs. A. Penrose of Grass Valley, Mrs. F. Robertson of state of Washington.

Burial took place in San Juan cemetery.

IOWA HILL WILL HAVE MINING BOOM

The ghost city of Iowa Hill came to life this week with the news that the Longpoint channel, fabulously rich gold vein, had been located on property of the Golden Streak mine.

Confirmation of the discovery came from Frank D. Kuenzly, one of a group of Colfax men who leased the property to a Long Beach operating concern headed by E. H. Boley. The Longpoint channel was located near the site of the old Jupiter mine from which more than $2,000,000 in gold is said to have been taken.

The strike made on Saturday, ended a 10-year search for the channel in which hundreds of thousands of dollars were invested by dozens of operators. The Longpoint channel made Iowa Hill, 12 miles east of Colfax, a hustling mining city of 15,000 residents. The workings thinned out, although the Pupiter mine remained a rich producer for many years.

Ten years ago the channel was lost through earth faulting. The present operators of the Golden Streak properties found the channel thru experimental drilling from the surface. When a bore indicated the wealthy channel had been relocated, a shaft was sunk, which reached the vein Saturday.

The strike is considered the richest in California in many years. The ore in the channel is said to pay $100 to the running foot.

The Golden Streak mine operators have a mile of the channel in their properties and are said to be negotiating for an additional 2300 feet with the McGritchin interests.

$200 NUGGET FOUND BY IOWA HILL MAN

Bill Andrews, prospector of Iowa Hill, brought in to Colfax a quartz rock the other day as large as a man's fist, containing a pocket of gold a half inch wide and nearly 2 inches long. It was estimated as worth $200.

Mining men were all agog over the find, and Bill is afraid to go home, fearing that he will be followed by someone attempting to trace the discovery.—Roseville Tribune.

CAMPTONVILLE TO HAVE DANCE

CAMPTONVILLE, May 20—All is in readiness for the big benefit school dance which is scheduled for Saturday evening, May 23rd, and a record crowd is expected from the surrounding country.

A fine five pieced orchestra from the Marysville Union High School and Junior College will be on hand to furnish the latest music from nine until four. An excellent supper will be served at midnight where those in attendance can get all they want to eat in the large dining hall which seats 160 people.

This is the first dance of the season at this place, and the first to be held since the local hall has been made over, it now being one third larger affording much more room and comfort and being able to accommodate a much larger crowd. The walls and ceiling have all been covered and painted, and the community can boast of one of the nicest halls of any place in the country.

The regular admission of $2.50 per couple, including supper will be charged, and the proceeds from the affair will be given to the Camptonville Union School District, which will use the money for repair of their school property.

MRS. REDDING RETURNS HOME

Mrs. Lena Redding of Downieville was in town Tuesday enroute to her home after having served as postmistress for the Senate during past session of that body.

As a tribute of appreciation for her work the senators presented Mrs. Redding with a beautiful crystal necklace.

Tis is Mrs. Redding's second term in the state legislature. Two years ago she served as assistant postmaster and her work was so efficient that she was promoted.

THE NEVADA CITY NUGGET

Published weekly on Friday morning at Nevada City, Calif., and entered as mail matter of the second class in the postoffice at Nevada City, under Act of Congress, March 3, 1879.

CONCENTRATES

Five and a half years ago the people of Nevada City voted, by a large majority, the bonding of the city for the sum of $10,000 for a municipal swimming pool.

Actually the city authorities have no right to use this money for any other purpose than that for which it was voted.

There was considerable dissention at the time as to the proper location for the pool, but a straw vote was taken in 1927, by actual count 80 per cent of the vote favored the Marsh tract on Park Avenue.

Discussion then arose as to the cost of construction and, most important, the expense of maintenance; particularly when it was learned that Memorial pool at Grass Valley required as outlay of $4000 a year for upkeep.

People seemed to lost interest in the matter and, although the bonds were sold, interest on them has had to be paid out of the general fund without the issue being of any benefit whatever to the city. The fund of $10,000 however is still intact.

Now, while it would perhaps have been in good order to spend this money for a swimming pool in 1926, provided the pool could have been maintained at a nominal expense, it does not necessarily follow that it is the proper thing to do at the present time.

A swimming pool is a luxury pure and simple—a delightful one we will admit, and an admirable adjunct to any community. So also are all recreation spots which can be developed around any city, because they not only add to the pleasures of those who live here but they attract others from the outside, and that helps to build up the community.

But in these days of adversity most of us have to get along without many of the little luxuries we would like to indulge in because we must have the real necessities first, and that is true also of the city.

We need certain changes in the water system, changes and additions that are imperative for safety. We need more improved streets for more than we need a swimming pool.

This does not necessarily mean that we are abandoning the idea of a municipal pool for all time. Conditions were never more promising for the future of Nevada City than they are at the present time, particularly in the field of mining. There is every indication that they will continue to improve and, later on, we will certainly be in a better position to maintain a suitable pool than we are at the present time.

The necessity for a pipe line on Long Street to connect with the main on Sacramento Street so that the Canada Hill water supply can be properly balanced in conjunction with the Wet Hill reservoirs has been urged as a matter of emergency for many years. It should be installed as early as possible.

Equipment is needed to keep the city streets in decent condition. Whether that equipment shall be in the nature of suitable crushers for producing fine rock and for scarifying, or whether it would not be better to treat as many of the streets as possible with heavy asphaltum, making the same type of roadway as that laid in 1927, is a matter of opinion.

It would seem more practical to treat with asphalt macadam the streets particularly which have a steep gradient. It is almost imopssible to keep fine macadam from washing on the hills during the winter months, but by holding it in place with heavy oils these streets will require but little attention for many years.

Asphalt macadam is very durable wherever the foundation is firm and solid, but it will not stand where water is permitted to get beneath it, nor will any other kind of pavement. Most of our streets however are now so thoroughly rocked that they have an excellent foundation for the purpose.

It therefore seems to us that the wisest thing to do at the polls next week is to vote the fund toward those improvements which will do the most good at this time. We can postpone the luxury of a swimming pool until we are in a better condition financially to support it.

0

GRASS VALLEY CLEANERS

In seeking real dry cleaning, pressing, dyeing and altering, you will find a most modern equipped shop in Grass valley at 111 W. Main, phone 375., opposite the telephone Bldg.

Since this well-known house has been in operation it has enjoyed an of the reasanablesess of the charge and general excellence of work and reliability.

They have the very latest equipment and use the most modern and scientific methods in all the work. They keep right abreast of the times and whenever there is anything new in the dry cleaning business you will find that they have it in use in their plant.

This is a business that requires experience and they employ only pratical help. The assistants are all able and efficient people who know their line throughly and you are asured the most careful and painstaking work.

Grass Valley Cleaners offer the best of valet service. Just call them over the phone and they will call for and deliver your work. The price will be reasonable, the service good and courteous. They will keep you looking "spic and span" all the time.

They specialize in all classes of dry cleaning, both for men and ladies and the most delicate dresses are handled in the most careful and efficient manner. Out of town work may be sent in by mail and returned promptly, many people praise this highly efficient service.

The manager is among the leading business men of his community who has always taken an active interest in the community's onward progress and is among the valued residents of Grass Valley, whom we wish to compliment upon his modern place and the admirable policy followed in the conduct of his business.

HIDDEN TREASURE ORE MAINTAINS GOOD VAIUES

SONORA, Calif., May 21.—Although progress in the extension of a drift tunnel on it has been slow, due to the fact that he has been working alone, the shoot of rich gold ore opened up a month ago by Sherman Wetmore on the Hidden Treasure claim, on the Stanislaus River. three miles north of Columbia, is steadily maintaining a width of two and a half feet and values averaging $200., a ton. Thus far Wetmore has followed the orebody a distance of 30 feet with the tunnel.

In the last 30 days individual operations have yielded Wetwore, he states, better than $10,000. This represented by "picture rock," valued at $100.. a pound and frequently found in the shoot, and a bar of bullion obtained from the $200 frade ore crushed in a mortar and panned out by hand. To aid him in his future operations, Wetmore, has had his son, Chauncey Wetmore, return from Southern California where the latter has been employed for several years as an oil driler.

To further expedite the development work, Wetmore, senior, has sub-leased to Ed. Hill and Dan Newman of Sonora a 600 by 600 foot block of ground on the north end of the claim, which he holds under a lease from Mrs. George M. Trask, of Columbia, the owner of the property. The sub-leasers have started a drift tunnel on the same vein 800 feet north of the Wetmore discovery has resulted in many prospectors instituting search for the extensions of the vein and the location of numerous claims in the immediate vicinity.

PLAZA SUPER SERVICE STATION

CARL T. LARSEN, Mgr.

Oils and gasoline of quality are essential if you want your car to give the best of service during the life of the motor. You will find nothing but the best sold at the Plaza Super Service Station, Carl T. Larsen, Mgr. They sell the well known Gilmore, Shell, and Associated Oils and Gas at this station, also motor lubricants, the use of which will prolong the life of your car. They are prepared to offer the public the best of crankcase service and give your car a thorough lubrication.

These excellent lines of gas and oil have been tested and found to be the very best to be obtained today, in fact just a little better than what you thought was the very best.

The great satisfaction that this station is giving is bringing in new customers daily. Their reputation is an enviable one, gained through the business like manner in which they carry on this station.

They have made a thorough study of the service station problems, featuring a washing and greasing service and a polishing job that makes your car look like new. This company is equipped to give road information and help you with your travel problems.

They are very accomodating and when you need gasoline or oil and happen to be caught out on the road without gas, telephone them at 46, Sacramento Street, Nevada City, and your needs will be promptly taken care of.

They always insist that the very best attention be given each patron and a consequence people throughout this section are praising the service rendered by them.

0

Value

"A telephone instrument on your desk is of no value if nobody else has one. But place telephones in the offices of a thousand other business men and connect them by a central switchboard, and the value of your telephone is at once apparent. As the number of telephone users increases, the value of your own telephone increases because the number of possible contacts is increased."—American Institute of Banking News.

There are more than twenty million telephones in use in this country at the present time, compared with only about 1,350,000 at the beginning of the century. During the last ten years alone the number of telephones in the United States has increased more than 50 per cent.

0

ELECTRICAL WIRING

L. B. Gregory will do all kinds of electrical wiring and all kinds of ignition work. He is well known here for his high class work.

Anyone wishing his services may call the Miners Foundry, Phone 10.

JONES MEMORIAL HOSPITAL

The very finest equipment, careful nursing and the most able professional services is the feature of this hospital located in Grass Valley on South Church, phone 37.

There is nothing more important to the onward progress of our community than a hospital service of this kind presided over by those who have made a special study of the needs of the afflicted—those who are unfortunate because of physical or mental defects. They feature general hospital service, general practice and surgery. They give the most patient service here.

The management is to be commended upon devoting their life to the work which is so much needed to make everyone fit to be a Spartan. The change in the methods from the olden times is well illustrated in the work of this hospital which typifies modern civilization.

This well known hospital occupies commodious quarters, is excellently appointed and most modernly eqiupped.

The rooms are well furnished and pleasant in every way. Cheerfulness and an air of hope are inspired by the furnishings which have been selected by the decorators with this idea in view.

They give all patients a thorough examination and during treatment they are cared for by nurses who are able painstaking and follow the directions of the medical department. This accounts for the rapid recovery of people going there and for the fact that they remain in good condition for years afterward.

They are always prepared to take care of urgent cases in the most rapid and efficient manner but it is always best for these who are expecting to go to the hospital to make arrangements in advance. This insures a private room and many conveniences. The special department for emergency is always ready for any unforseen service.

As the purpose of this edition is to give the outside world an adequate idea of our social, industrial, artistic and professional progress we deem it quite appropriate to call the attention of the public to the efficiency and great work that is being carried on at the Jones Memorial Hospital.

FRENCH CORRAL ITEMS

FRENCH CORRAL, May 21—Harvesting is going on pretty lively in this section and soon our beautiful grain fields will be changed into fields of stubble. The rain still holds aloft, yet many of us have not given up all hope of showers yet to come.

Indeed the "water questions" presents rather a gloomy outlook. While in French Corral, we are not in danger of suffering, forebodings of evil for our sister towns along the Ridge are keen indeed, especially the good old town of North San Juan which would be completely wiped out should fire ever get started there. Our water association has been financially unable to do the repair work that would insure a supply of water and right here we can not refrain from sending out an appeal to natives and ex-residents of that historic old town and of the San Juan Ridge, whose best and happiest days were spent here and to say they are numerous is not expressing it at all, for they are simply multitudinous. If some of them would start a fund to which each would contribute only one dollar what an enormous sum would soon be raised to help us.

Large herds of cattle owned by Owens Stapler, Miller and Walsh passed through this week on their way to mountain ranges.

Mrs. L. Dudley, who spent a few days at the home of her parents in French Corral, returned to Nevada City Wednesday.

F. S. Wood and friends from San Francisco, Mr. E. Brady and daughter, Miss Marion and son, Harry, were Wednesday visitors.

W. P. Clerkin and Harry Browning returned to French Corral Wednesday after taking cattle to the mountains.

Mrs. J. W. Culver and Mrs. E. Schwartz went to Smartsville Wednesday night to attend the meeting of O. E. S.

Frank Murphy of Montezuma Hill and "Buzz" Callanan of Rey's ranch, were Thursday visitors.

The teachers of the San Juan Ridge held a meeting at French Corral school house Thursday to study their Art lessons.

Geo. Howe of the Forest Service was a Thursday visitor.

Mrs. Wm. H. Moore, who had been visiting relatives in Birchville during the week returned to her home in San Francisco Friday. Her uncle, Mr. O'Connor took her to Grass Valley.

Adrian O'Connor, son of the late John O'Connor, surprised his relatives in Birchville Friday, by dropping in on them with his bride. They had been married in Reno and took in Birchville on their wedding tour.

Mrs. F. Godding and Mrs. Simpson of Red Dog were visitors this week.

A delightful whist party by members of the O. E. S. was held at the home of Mrs. J. W. Culver, Sunday. Twenty-two guests were present and five tables of whist was played. A delicious banquets was served before the time. In this case a day of pleasure had a very sad ending, for as the guests were getting ready for their departure. Mr. T. Schwartz drove in, and while he whispered to some that Buck Jones had been killed in an auto accident he told Mrs. Jones who was one of the guests that her husband had been hurt and he came to take her to him. She left immediately accompanied by her friend, Mrs. Aurelia Calling. The sad news cast a gloom over our entire community.

Mr. and Mrs. Cecil Hoffman and Mr. and Mrs. Coons and little Betty and Billy and Miss Kirke and brother Harry, were Sunday visitors. Mr. Hoffman is one of our natives who ever delights in "coming home."

W. E. Moulton and Warren Thomas made a trip to Sacramento yesterday.

Keith Sutherland, who has been visiting his sister, Mrs. E. Sutherland for the past week left Monday a. m. en route to his home in the state of Maine.

Mr. and Mrs. F. S. Wood and son, Carl, visited friends in French Corral Monday.

Another of our Ridge natives has answered the final call. Joe Rodgers, who was born and raised in Sebastapol and spent his entire life there will be laid to rest in the family plot in San Juan cemetery this afternoon. Our sympathy to his family.

0

DRIVERS AGED 20 TO 29 TOP MARCH MISHAP LIST

California drivers between the ages of 20 to 29 years who were involved in traffic accidents in March this year far outnumbered any other age groups, according to a report of the Division of Motor Vehicles received by the California State Automobile Association. This group represented more than 32 per cent of the total.

★ BUILDERS OF CALIFORNIA

He knows *where* *Fire* may strike

You may never see him. But he's working *now* to protect your life and property—the *Fire Prevention Engineer*. Who can estimate the thousands of lives he and his co-workers have saved; the millions in property loss prevented?

This new "science" of fire-prevention—first launched and continuously supported by insurance companies—is but 27 years old. Yet average national fire insurance rates have been reduced by 30 per cent!

Fire-fighters, too, have adopted scientific methods. Commissioners and fire-department chiefs now regard *prevention* as one of their first duties. They train their men to recognize and remove fire hazards; and, knowing that most disastrous fires are caused by carelessness, give freely of their time to educational work.

In this community and throughout California, fire-prevention directly concerns every man, woman and child. And so Bank of America, in the interest of *all* Californians, lends its staunch and active support.

9 of the 10 LARGEST FIRE INSURANCE COMPANIES operating in California are served by Bank of America —as well as thousands of employes, brokers and agents.

CAMPTONVILLE ITEMS

Rev. Father Charles Ramm accompanied by his sister Mrs. Anna Ramm Marsh of Can Francisco arrived Friday to spend a vacation at the John G. Ramm ranch at Bridger Creek.

Julis E. Pauley returend Thursday from Marysville after a short business visit at the Hub City, his sons Earle and Myron returned with him.

William Handling of Grass Valley was in town Thursday on a short visit with friends.

Mr. and Mrs. William Casserly passed through town Friday enroute to the lower country after their cattle.

Mrs. Kate Hope, Member of the Mounery Board of Education motored to Marysville Saturday to attend a meeting of the Board. James L. Joubert and Livingston Cloman accompained her.

C. N. Chatfield motored to Nevada City Friday on a short business visit.

Burt Fulgham of Sacramento, was in town on a short business visit.

A band of cattle belonging to Bert Miller of Sierra Valley passed through Friday enroute to the upper country.

Forest Ranger Frank W. Meggers motored to Nevada City Saturday on a short business visit.

Miss Florence Smart a student at the University of California at Berkeley, arrived a few days ago to spend her vacation with her parents.

William Hograth motored to Nevada City Friday on a short business visit.

Chas H. Greene of Grass Valley was in town Friday on a short business visit.

Julis E. Pauly and sons Erle and Myron motored to Mohawk Saturday to spend the week end at her summer residence here.

County Sureveyor E. Bounce and Family of Yuba City, spent the week end on a fishing trip.

County Surveyor Jason R. Meek and grandson William C. Meek, of Marysville, were in town Friday on offical business.

The Board of Trustees of the Camptonville Union School District held a meeting Saturday evening at which time they elected teachers for the coming year. Mrs. Grace Pauly, incumbent, was re-elected as principal and teacher of the elementary school, and Mrs. Kate M. Williams, was elected to the primary department. Mrs. Kate Hope Livingston, high school teacher, continuling in charge of the high school work. Mrs. Williams well be a new teacher, replacing Mrs. Maud Smart who has been here for the past three years, and who would have been retained were it not for the tenure law, a nightmare to all rural-school districts and teachers. Mrs Smart has given excellent satisfaction here and it is with very much regret to the community, and to the children, that she is leaving.

Two old fashioned Cahrivaries were held down the ridge during the week, the first at the home of Mr. and Mrs. Wilfred M. Brown, newly weds, at Mosquito Creek, and the second at the Log Cabin in honor of Mr. and Mrs. Frank Klenzendrof. The tin can serenade brought the young people forth, and general congratulations were extended. At the Log Cabin where a large number of friends gathered, dancing was enjoyed during the evening.

A lone prospector passed through town a few days ago en route to the lower country, and in his panning for gold in some of the old nearby diggins, he panned out an old American dollar piece, bearing the date 1795, which was coined shortelyafter the Revolution, and one of the first pieces of American money, a peice which would be valuable to any coin collector.

Miss Katheryne Pauly arrived Sunday from San Jose and will spend a short time here visiting her parents.

Sheriff W. D. Johnson assompanied by W. L. Carter and Clark Carter of Downieville passed through town Thursday enroute to Pike City on offical business.

Mrs. M. G. Calvin who suffered a badly scalded foot several weeks ago is no wable to move about.

W. A. Stansberry, formerly of Sacramento, has taken over the garage at Camptonville and established himself in business as The Leader Garage, and has opened up for himself in business in the general garage line. He has a full line of equipment, electrical device for valve grinding, welding, battery charging, and is especially fitted for ignition work on a car. He also has Aline of gasoline and oils, and accessories, with free air. For many years he was with some of the largest garages in Sacramento, and came into the mountains well recommended, it being his desire to have a business of his own in a small community. He has had much experience in all lines of mechanical work, all work is fully guaranteed, and his repair prices are right.

Rev. Father O'Riley of Nevada City was here Wednesday holding service at the Hotel Francis.

Mrs Maggie Crans, Life time resident of this section and Wilfred M. Brown, formerely of New Mexico, were married Monday at Nevada City by Superior Judge Raglin Tuttle. The bride is a daughter of Mr. and Mrs. Miner Jayne, and was born and raised in this section. The couple will reside at Mosquito Creek where the groom owns a small ranch and home.

GLENBROOK DAIRY

E. P. SUTTON, Mgr.

This up-to-date concern is a very prominent institution which has aided in the upbuilding of the community and renders a valued and an essential service in the furnishing of their products. A well known concern under a management that is thoroughly conversant with every feature of the business.

Popular with both the producer and the customer is evidenced by the large number of farmers selling their milk and cream to this concern, as it is a well known fact they pay the top of the market at all times.

Commendable publicity and valuable advertising is given our community by this progressive firm, far and wide. Their operations are of a most extensive nature and add to the commercial efficiency and attractiveness of the community as headquarters for quality products.

Why should not this company be able to produce as good ,if not better dairy products than any other company.

Their supply of cream comes from the healthiest and best fed cows in this particularly advantageous section. The plant is positively as sanitary as long experience and the expenditure of much money can make it, and it is in the hands of men who are thoroughly conversant with every feature of the business.

There is no reason why they should not occupy a prominent place in the better class of dairy markets and the above are some of the reasons why their brands are more and more popular with particular buyers, and why this concern is prospering far beyond even the promoters expectations.

In making this review we are glad to compliment the Glenbrook Dairy, located in Nevada City on Town Talk Road, Phone 303, and compliment the manager upon the busines which the concern is conducting and to say that this firm will greatly aid in the development of this section of the state.

SAINT MARY'S CONVENT

In Grass Valley one will find a refined and high class school for the younger generation of today. To say the least, we can cheerfully recommend to any mother the merits of a scholarship with the Saint Mary's Convent.

In a visit to the school one will instantly feel the atmosphere of business idealism and general educational interest. By its dignity, the visitor is immediately impressed that here is a good wide-awake school where students find efficient, sepcialized training. It is well deserving of its established reputation for its thoroughness and quality is its chief asset. In the commercial department, which is well and favorably known in this section and in their anticipation they will graduate a class of 21 students this year.

Their Academic High four year course is most complete and the cost reasonable. For high school graduates a commercial and complete course can be secured in the short time of 10 months, obtaining a diploma, and for those who have been less fortunate and only gone to high school for a period of two years they can obtain a commercial education in two short years at this institution, securing their diploma at the expiration of the two year course.

Saint Marys Convent has built up its present high standard by the tireless efforts of Sister Superior, Sister Elizabeth, whose long and satisfactory services has rendered an inviolate help and worth while assistance to many of the younger people.

The work is individually planned, equipment, text books and instructions are in accord with present day demands and at this local convent, a business education means, "a definite amount of training along definite lines for definite purposes". Each pupil that leaves this convent is adequately prepared to keep pace with the demands of modern methods. We endorse this convent as a thorough school for students, as it is a rehabitational vocational institution. They are earnest with the students and are willing to discuss intelligently, matters pretaining to the institution at large.

CALIFORNIA HIGHWAY DEATH LIST LARGE

In a special statement issued today Superintendent E. Raymond Cato of the California Highway Patrol is quoted as follows: Unless a Concerted effort is made on the part of California motorists to force a reduction in motor vehicle accidents, the year 1931 will witness the highest record for deaths and injuries in the state's history. I am greately agitated after reviewing the statistice for the first quarter of 1931. Already 566 persons have been killed and 10,717 injured this year. We have had 8,058 accidents this year, almost 1000 more than last year.

"It begins to appear that with all the time and effort being expended in safety educational endeavors, there is something inpractical or we should have better results. I make this conclusion after comparing conditions in California with conditions of several other states which are showing far better results than California."

"The statistics for the first quarter of 1931 show an increase of 6 per cent in fatal accidents on our rural roads and a decrease of 3 per cent in deaths, while in the cities of the state fatal accidents increased 19 per cent and deaths 18 per cent. Fortunate as we are, to be able to show some decrease in motor vehicle deaths on the roads patroled by our state officers, we fear that the circumstances in general argue against our ability to maintain this showing of improvement over a long period unless the public itself develops safer driving habits. Particularly difficult is the problem of the city police officals in congested areas."

Victor W. Killick, the Patrol's statistican and restarch engineer is also quoted in the statement as follows: "It is part of our routine work to keep advised upon the progress of the states that show improvement in the control of their motor vehicle accident problem. When a state Rhode Island shows reduction of 17 per cent in total deaths and 504 persons injured during 1930, we are satisfied that they are exercising partical safety ideas.

BLOCK OF WOOD AIDS USING JACK IN SAND

When traveling any distance where sand or soft surface prevails, trouble in the event of tire goes flat may be averted by carrying a block of wood as a solid base for the jack, suggests the Free Emergency Road Service of the California State Automobile Association. The size of block advised is two by six by ten inches. This can be placed under the jack and any slipping avoided by driving a few nails through the block, allowing the points to protrude about an eighth of an inch.

LOCATION NOTICES —Quartz and placer location notices for sale at The Nugget office at 5c each.

INSECTS IN RADIATOR CAUSE OF OVERHEATING

During the summer months an accumulation of insects in the radiator core may cause overheating of the motor, according to the Free Emergency Road Service of the California State Automobile Association. Removal of the insects with a stick or wire should not be attempted, as this may damage the radiator. The best plan is to direct a heavy stream of water through the radiator from the rear.

The BEST Gray Hair Remedy is Home Made

To half pint of water add one ounce bay rum, a small box of Barbo Compound and one-fourth ounce of glycerine. Any druggist can put this up or you can mix it at home at very little cost. Apply to the hair twice a week until the desired shade is obtained. It will gradually darken streaked, faded or gray hair and make it soft and glossy. Barbo will not color the scalp, is not sticky or greasy and does not rub off.

In one hour they're coming to dinner
...*my automatic electric range is doing the cooking now!*

THAT'S THE ADVANTAGE of cooking food with an electric range—you do not have to spend hours in the kitchen watching the cooking.

You simply prepare the food, place it in the oven, and the rest of the afternoon is yours—for social engagements, shopping or any other activities. When you return home, the dinner is perfectly cooked—hot—and ready to serve.

Even when you have company for dinner, cooking is simple and easy. As a result, you look your best. You are at ease. Entertaining in *your* home is a pleasure.

The electric range of today has faster cooking elements—just as fast as you want them. Its white porcelain enamel will harmonize perfectly in your kitchen. As for cost of operation, 4c worth of electricity, on the average, cooks the dinner for four persons.

For clean, convenient cooking you should have an electric range. A small payment down will place the range of your choice in your kitchen, ready to use. Come into our office or a dealer's store and see the beautiful new electric ranges.

FLOTATION TESTS PROVE SATISFACTORY

SAN ANDREAS, Calif., May 21—Oil flotation tests conducted for the last six weeks by the Western Empire Mines Company, Ltd., with offices in Los Angles, on the ores of the Royal mine at Hodson have so materially increased gold recovery and reduced tailings losses that the management has decided to adopt it as a part of its future reduction process, it is announced by General Manager Frank Tower, Without regrinding the ore, the tests show a rexovery of 89 per cent of the values.

In experimenting with the oil flotation method, the management has used two cells or units. These will be increased to a total of six, which, with a 100-ton daily capacity ball mill for regrinding, will be installed quickly as posible for nandling the ore after it leaves the 20 of the total 120 stamps of the milling plant at present in use. With this additional equipment, the management is condfident that a further improvement in metal recovery and decrease in tailings' losses will be effected and the daily volume of ore treated increased from the present 50 to 200 tons.

The management announces the completion of the sinking of the main shaft on the Royal mine from the 1000-foot level to the 1200-foot point and the establishment of a new level on the 1,2000-foot horizon. The 600 feet of shaft below the station is being used as a sump and for the installation of a 100-ton ore pocket for the expeditious loading of skips. Current production is coming from the 1,000 and 1,200-foot laterals on the Royal vein and from a stope on the Goodenough vein above the 700-foot level and a winze recently started immediately beneath the stope. The winze has gained a depth of 70 feet and will be continued down an additional 50 feet, at which point a new level will be extended to rurther open up the ore-body. The crosscut working force of the mine and mill totals 45 men.

Under a lease recently obtained from the Melones Mining Company, Lawrence Montaverda and associates of Angles Camp have started a new incline shaft on three feet of ore which pans well. They are also erecting a five-ton pilet mill on the property.

—0—

J. F. O'CONNOR

SURVEYOR

This gentleman has done much for the people in this section by specializing in geological surveys and mining developments. He is conveniently located in Grass valley at 105 S. Church, phone 92, in the Commercial Bldg., his residence phone is 253-R. He also adheres to procuring patents for mining claims from the location to the actual issuance of the patent. Having been in business in this locality for many years he is well and favorably known throughout a wide territory.

He is a mining engineer as well as municipal. This man has greatly aided in the progress, growth, expansion and prosperity of this part of the state, by reason of his very accurate service.

In the rebuilding of America and the changing of it from a pioneer settlement to the substantial community there is no one who has been more of service than this modern engineer. He has made a thorough study of the needs of the present day and offers individuals and coroprations his unbiased and complete service.

He has modern equipment for the making of accurate surveys and has in his employ very able assistants who are ready to go on the job and rush the work to completion and he personally guarantees this service.

The old pioneer towns and cities which were laid out without the aid of competent engineers are relics of yesterday and in their place we now have the zoned city with all of its attractiveness as well as its sanitary precautions which are so necessary in this age of congested populations. America is rebuilding, New York has taken the lead and its architecture and modern ideas are the wonders of the world. We are glad to compliment Mr. O'Connor upon his activities to meet the demands of the day and to say that when this state has many times its present population his work will stand for future generations to admire.

F. F. BREESE

PLUMBER

Nevada City can well boast of this modern plumbing engineer located at 232 Commercial St., phone 221-J. He features a most complete and reasonable plumbing and heating service.

What the arteries are to the body a plumbing system is to a home. This comparison is indeed not far fetched. Both require careful and expert attention when they need repair. If your circulatory system is bad, you are doomed; if the plumbing system of a home is defective you are never at peace.

F. F. Breese and associates have gained that mastery of their trade which only comes with careful study and long experience. If you have plumbing troubles, you need look no further to have them eliminated.

If you are building a home, consult this firm. They will advise you as to the very best that can be obtained in the way of a plumbing system for your home. Their work is guaranteed and their prices are the most reasonable possible consistent with the high quality of the service.

To visit the stock rooms and display rooms is to see the best that can be bought in the line of plumbing supplies. The fixtures are of the latest design and have the most modern scientific appliances to assure their convenience. Here in the large display room you will find a complete bath room fitted out in the most modern style.

You will find on display in this house the kitchen plumbing supplies. All those conveniences which take away the drudgery from kitchen work. Sinks which contain the latest convenient device to make such tasks as dish washing far less annoying.

Needless to say, the enviable reputation of these popular plumbers has been achieved only by doing business on the fairest basis possible. People instictively fear sanitary engineers because of their fees. There is not a home in this or surrounding cummunities, where these men have worked that will not vouch for the high quality of the work. They carry this same ideal of service in their line as citizens of the community.

SUMMONS
NO. 5928

In the Superior Court of the State of California in and for the County of Nevada.

ANNA LUTHER, Plaintiff,
v.
JOHN JOHNSON; ELIZABETH E. TARR; also, all other persons unknown claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership ,or any cloud upon plaintiff's title thereto, Defendants.

Action to determine adverse claims to and clouds upon title to real property, brought in the Superior Court of the State of California in and for the County of Nevada, and the complaint filed in the office of the Clerk of said County of Nevada.

NILON, HENNESSY & KELLY, Attorneys for Plaintiff, Grass Valley, California.

THE PEOPLE OF THE STATE OF CALIFORNIA SEND GREETINGS TO:
JOHN JOHNSTON; ELIZABETH E. TARR; also, all other persons unknown claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership, or any cloud upon plaintiff's title thereto, Defendants.

YOU ARE HEREBY directed to appear, and answer to the complaint in an action entitled as above, brought against you in the Superior Court of the State of California in and for the County of Nevada, within ten days after the service on you of this summons—if served within this County,—or within thirty days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required, the said plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract, or she will apply to the court for any other relief demanded in the complaint.

The following is a statement of the object of the action:

The object of the action is to determine all and every claim, estate, right, title, lien or interest in the property herein described; that the plaintiff is now, and has been, by herself and her predecessors in interest, the owner of and in the actual, exclusive and adverse possession of the property hereinafter described continuously for the period of more than twenty years immediately preceding the filing of the complaint in this action, claiming to own the same in fee against the whole world, and that plaintiff has, by herself and by her predecessors in interest, paid all taxes of every kind and nature whatever, levied or assessed against said real property during the period of five years continuously immediately preceding the filing of complaint aforesaid; that the claims or claim of said defendants is without right, and that they have not, nor has any, or either of them, any right, title, estate, lien or interest in said real property or any part or portion thereof.

The land and property affected by this action is:

All that certain real property situate in the City of Grass Valley, County of Nevada, State of California, and bounded and particularly described as follows, to wit:

All that portion of Lot 9 in Block 27 of the Town, now City, of Grass Valley, as said lot and block are designated upon the official map of the Town of Grass Valley made by Samuel Bethell in the year 1872, and more particularly described as follows, to wit:

Beginning at the South East Corner of Lot 9, on the North line of Neal Street of said City of Grass Valley, from which the South West corner of Lot 8, the intersection of the East line of Mill Street and the North line of Neal Street, bears N 57° 18' W at the distance of 208.11 feet; thence N 22° 34' E along the line between lots 9 and 10, 66.89 feet to the corner common to lots 9, 10 and 12 of said Block 27; thence N 18° 14' E along the line between lots 9 and 12, 47.14 feet to the North East corner of lot 9 on the West line of lot 12; thence N 67° 50' W along the line between lots 9 and 6A, 38.50 feet; thence S 23° 47' W 105.73 feet to the Northerly line of Neal Street; thence S 57° 18' E along the Northerly line of Neal Street to the place of beginning.

GIVEN under my hand and the seal of the Superior Court of the State of California in and for the County of Nevada, this 15th day of May, A. D., 1931.

R. N. McCORMACK,
Clerk.
By ....., Deputy Clerk.

NATVE DAUGHTERS HONOR PIONEER MOTHERS WED.

Laurel Parlor Native Daughters of the Golden West were honored on Wednesday evening, their annual mother's night, to have as their guests two pioneer mothers who had come to California as little children.

As the mother who had longest been a resident of the state, Mrs Nancy Wanamake of this city, was presented with a lovely bouquet. Coming across the plains as a child of three she reached this county in 1853 and with her family settled in Red Dog. She saw all the thriving mining communities of those days and had a vivid remembrance of them all.

As the oldest mother present the Daughters presented Mrs. Belle Powell, 84 with a beautiful bouquet as a token of their esteem for this pioneer mother. Mrs. Powell came with her parents by boat to San Francisco hence to Sacramento by boat. It was in December of 1861, the year of the big flood and when the party reached the Capital they found it under water. Continuing their trip by boat as far as Marysville they found that the waters had receeded but left signs of their damage everywhere. With difficulty the party reached Nevada County where they were to make their future home. Mrs. Powell lives in the Bay Region with her son now, but her heart remains in Nevada County and she is always delighted to return here.

A short program was given to entertain the mothers who were present as guests of the Native Daughters. Each mother was presented with a corsage bouquet of spring flowers. At the close of the program light refreshments were served.

Mrs. Allison Watt of Grass Valley, Past Grand President of the Native Daughters, of whom Laurel Parlor is always glad to welcome, was present and gave an address in the banquet room exaulting mothers.

MINE OWNERS NOTICE

For the past several years the Nugget has persistingly forecast an awakening of mining interest. At last the day has come. Capital is turning to gold mining and nowhere in California or for that matter in the United States is the interest being focused as it ih upon Nevada County. Within the past week dozens have visited this district seeking for properties in which to invest either their own money or the money entrusted to them. Some are seeking big properties ,others smaller ones.

The Nugget maintains a free listing of mining properties. We are glad to give this service to further the cause of mining. If you have not allready listed your properties with us do so at once.

HUSON-CERRO WEDDING CELEBRATED IN GRASS VALLEY

Mr. Walter J. Huson of Nevada City and Miss Vivian Cerro of Grass Valley were united in marriage by Father O'Shea of St. Patrick's chruch in Grass Valley.

Attendants were Miss Denyse Foley and Milton Master of Nevada City.

The young couple will make their home on Empire street in Grass Valley.

The young couple were graduates of the Nevada City high school of the class of 1930.

Mrs. Huson is a winsome young woman with a large circle of friends The groom is a son of Mr. and Mrs. A. C. Huson of Nevada City where he is well and favorably known.

MISS CLARE NEIL AND CHAS. GODAT WEDDING

The home of Mr. and Mrs. Leslie Orzalli on the western end of Cement Hill Ridge was the scene last Sunday afternoon at 2:30 o'clock of a pretty wedding at which Miss Clara Neil of Marysville became the birde of Charles Godat of Sacramento. Judge W. L. Mobley performed the ceremony.

The couple were attended by Mr. and Mrs. Orzalli, the latter a sister of the groom. and little Miss Beth Curtis of Palo Alto, a niece of the groom, was ring bearer.

0

Mrs. P. C. Duchamie, an old resident, now residing in Berkeley, is a visitor for a couple of weeks at the home of Mrs. H. L. Kitts.

TYSON STUDIO

'Photographs live for ever' Tyson stamp on any photo exemplifies modern and expert photography. Located in Grass valley at 107 Mill, phone 67. They are making a special offer at this time, one to a dozen photos for $7.00, cash in full payment.

Under competent management, is a popular art center of the community and the place where people of this section know they will find expert profesional work in all that pertains to modern photography for the propietor is of very wide experience in the work. They have won wide renown as artists of the first rank and makers of photographs that please.

Truly has it been said' Your friends can by anything you can give And photographs are not expensive because the proprietors of this studio are prepared to serve you in the most efficient manner at small cost.

You can secure here most excellent photographs at most moderate prices. Of course they are prepared also for the rarest and most costly work in this line and there are examples of their artistic ability today in the homes of the many families in the community. But they are also and specialize in proving to you that really good work can today be had at truly a very small cost.

This well known place has won the admiration of many parents through excellent work they do in making pictures and potraits of children. Whether it be an infaint in arms or a child in school, they seem to possess that happy faculty of catching them in the most natural way.

This studio is one of the leaders in this profession, as are also the assistants. Their work has elicited the highest commendation espically among the prominent families of the community, and the studio is at the service of clients whenever they desire.

Taken all in all Tysons Photo Studio is a worthy member of the profession and the citizens of this section are to be congratulated upon having persons of such artistic ability in their midst.
